08 The new cycle lanes should b_____ both commuters and local businesses.

09 Use the i_____ at the back of the book to find every reference to climate change.

10 The journey was exhausting, but the view from the top made it w_____.

Reading

METHOD ACTING / 6 MARKS

Read the article, then answer questions 1-6 on the next page.

1 You may have heard this term before, or you may not. For the latter, method acting is where actors try to get inside the minds and lives of the characters they're playing on screen. Pre-filming, they recommend spending time considering how their character might behave in different situations, in order to 'become' them. They may even live like their character as they get ready for filming. Method isn't the most popular technique because of the preparation required, but some believe the effort is worthwhile.

2 Method acting has been around for ages yet it hasn't become the most adopted approach. Some say this is due to the demands it puts on an actor to master it (not that this puts some off it), and the effect it has in real life long after filming has stopped must be considerable. I think this is outweighed by the fact that, in general, working with method actors is more challenging, which limits opportunities. A number of directors have complained about losing control when working with method actors.

3 What do actors say about method acting? A handful of famous faces are well known for following the approach and have at times had fun made of themselves because of it. But others say they aren't method actors, they've found it exhausting when they've attempted it, and they prefer to fall back on more general acting techniques that don't require 'taking the character home' and making them part of their lives. Their methods are no less effective, they say.

4 Some actors appear to take method acting too far. One such actor got rid of almost everything he owned to better perform the role of a poverty-struck musician. This, he said, enabled him to feel what his character might have felt, and helped him give the performance of a lifetime. Clearly, this actor felt it necessary to take things to extremes, but is going to such lengths for acting really worth it? Can audiences tell the difference? Probably not.

5 We rarely even notice good acting, but we might notice when things don't go so well. This could be the plot, the dialogue, the acting itself. It's not that we don't appreciate a good piece of acting, but we wouldn't necessarily know the difference between an actor who's looked inside himself to find the necessary skills, and one who's lived unwashed in a caravan for weeks as his character has. The only time we may notice method acting is when an actor is playing a historical figure, or celebrity. Then, we can appreciate the similarity and understand the efforts the actor must have gone to, to speak and move like the person they're playing.

6 A few actors have started to speak out against method acting. 'If you're playing a killer, you can't go round preparing for that,' says one. 'It's ridiculous,' says another, 'Just act!' Some report that not only is method acting potentially dangerous (on occasion, actors have even made themselves ill by following strange diets or extreme sports during preparations), it can also disrupt the filming process on set. 'If an actor refuses to step out of the role during breaks, you may have to deal with a bit of an idiot ...' says one actor.

Reading

METHOD ACTING / QUESTIONS 1-6

Choose the correct answer

6 marks

Circle A, B or C. Refer to the article on the previous page.

01 What is the main purpose of the introduction?

A To explain why a well-known technique is used in filming

B To recommend a well-known technique

C To provide a definition of a well-known technique

02 What is the main reason that the writer feels that method acting isn't more common?

A There are fewer acting roles for those who like method acting.

B It is very difficult to maintain the role after filming has stopped.

C Method acting takes much longer to become really good at.

03 What does the writer suggest in the third paragraph?

A Some well-known actors say they really enjoy method acting.

B Method acting can have a negative impact on actors' personal lives.

C Other acting techniques are not as successful as method acting.

04 What does the writer say about one famous method actor?

A He believed his preparations would enable him to do well in a role.

B His preparations for the role were fairly typical of method acting.

C He needn't have prepared for this particular role so thoroughly.

05 What does the writer say about audiences?

A They particularly enjoy seeing movies where actors play well-known people.

B They have difficulty distinguishing between method and ordinary acting.

C They tend to focus too much on the poorer aspects of a performance.

06 Why does the writer include quotes from actors in the final paragraph?

A To highlight the kinds of things that often go wrong in preparations

B To support the argument that method acting is unnecessary

C To explain why the majority of actors now refuse to do method acting

End of the main paper. Check your answers in Grammar, Vocabulary and Reading before the 70 minutes finish. Wait for your teacher before starting Listening.

Listening

EXERCISE THAT DOESN'T FEEL LIKE EXERCISE

NAME _____

A radio programme about exercise

6 marks

You have 45 seconds to read the questions. You will hear the recording twice, with a 10-second pause between plays. Circle A, B or C for each question.

01 What is the problem with daily exercise for many of us?

A It is too difficult to fit it into our lives.

B It feels too much like doing work.

C It quickly becomes too repetitive.

02 What does Mariam say about her early experiences of exercise?

A She preferred exercising alone than with other people.

B She did not think she was very good at sport.

C She only did activities that she was forced to do.

03 What does Mariam say about drummercise?
